

South Venice Yacht Club is hosting Mote Marine Laboratory & Aquarium. Please join us for this special presentation:

**[The Science of Harmful Algal Blooms](#)**

**Thursday June 13, 2024 6:30 to 7:30 PM**

**South Venice Yacht Club, 4425 Yacht Club Drive, Venice, FL**

Join us for an eye-watering exploration of the science, impact, and solutions surrounding Florida Red Tides. Led by Mote's ocean experts, this engaging presentation will reveal some of the mysteries of red tides and how they affect our environment, economy, and health.

Through captivating visuals, real-life case studies, and interactive discussions, you'll gain a deeper understanding of the causes, effects, and management of these harmful algal blooms. Plus, learn about cutting-edge research, innovative technologies, and practical strategies that Mote is developing to protect our coastlines.

Whether you're an environmental enthusiast, a concerned citizen, or a curious learner, this presentation is a must-attend event. Don't miss this opportunity to expand your knowledge and make a positive impact on our oceans and communities.

**Presenter:** Jason Robertshaw, Virtual Learning Program Manager
